#### 6. EXPLANATORY:

- (a) Par. 1a: Home Page / consists of 834,103 pages, and /index.htm 12,926.
- (b) Par. 1a: This site uses the IP address & User-agent in combination based method to measure Unique Users.

Note: The Total number of Unique Users is adjusted to remove duplicate Visits by the same user. In other words, regardless of the number of times that a user visited the site, they were considered a single Unique User for the period in Par. 1a.

The Daily average represents the number of Unique Users that visited the site each day as shown in Par. 3a, added together and then divided by the number of days in the period. The Mon. to Fri. and the Sat. & Sun. averages are calculated in the same manner as the Daily averages but limited to weekdays and weekends respectively.

#### DEFINITIONS

*Browser:* A software program running on a computer that can request, load and display documents available on the World Wide Web. In our definition, it is assumed that a "human being" is operating the browser manually and viewing the page.

Communication Errors: The failure of a web browser/web server to successfully request/transfer a document is considered a communications error. ABC Interactive only measures successful communications.

HTML Page: A Hyper Text Markup Language document is stored in a directory on a web server and/or created dynamically at the time of the request for the purpose of satisfying that request. In addition to text, an HTML page may include graphics, video, audio and other files.

Internal Page Impressions: Web site activity that is generated by individuals with IP addresses known to be associated with the web site. This activity is excluded from the Audit Report.

Nonqualifying Activity: Unsuccessful transfers of requested documents. Also, successful transfers of requested documents where evidence suggests that browsers were not in use (i.e., a human was not viewing the page at the time of the request), are considered nonqualifying and have been deducted from reported figures.

Page Impressions: The combination of one or more files presented to a viewer as a single document as a result of a single request received by the server.

User/Visitor: A unique IP address with heuristic.

Visits: A series of interactions by a visitor with a site without 30 consecutive minutes of inactivity.

From the Audit Bureau of Verification Services, Inc.:

We have examined the activity records and other data presented by this Web Site for the period covered by this Audit Report. Our examination was made in accordance with the Bureau's established procedures, and included such tests and other audit procedures as we considered necessary under the circumstances.

In our opinion, the Web Site activity shown is fairly stated in this report, and the other data contained in this report are fairly stated in all respects material to the activity.
